## Garfield “Gary” Jones

Deputy Program Manager, Continuous Diagnostics and Mitigation (CDM), U.S.  
Department of Homeland Security

Garfield “Gary” Jones is the Continuous Diagnostics and Mitigation Deputy Program Manager. Gary is responsible for managing systems and implementation engineering, requirements and testing for the CDM Program. Gary has worked as an Information Systems Chief Warrant Officer in the military and as a Cyber Test Engineer in the civilian sector. After 25 years, Gary retired from the military as an Army Reservist in November 2018. Gary recently finished his Doctorate in Industrial and Systems Engineering. Gary holds certifications as a Certified Ethical Hacker and Certified Test and Evaluation Professional. Gary’s outside interests include being an adjunct professor teaching Systems Engineering at Morgan State University, teaching computer programming at University of Maryland University College, and spending time with his family.
