

Dan Dagher (Dags)

National Risk Management Center (NRMC) Supply Chain Risk Management Initiative Lead, Cybersecurity and Infrastructure Security Agency (CISA)

Mr. Dan Dagher is the Supply Chain Risk Management Initiative Lead within the National Risk Management Center (NRMC) at the Department of Homeland Security's (DHS) Cybersecurity and Infrastructure Security Agency (CISA). He oversees a wide-ranging CISA program providing supply chain support and recommendations to partners and stakeholders across the federal government and private industry. Supply chain risk management, with a focus on both Information and Communications Technology (ICT) and 5G, are top CISA priorities. Mr. Dagher also supports the Federal Acquisition Security Council.

Previous to CISA, Mr. Dagher was a Senior Associate and Cybersecurity Analyst with Delta Risk LLC where he led, facilitated, and provided support for several key initiatives across the Department of Defense cyber community in the office of the Department of Defense Chief Information Officer and also the office of the Principal Cyber Advisor to the Secretary of Defense.

Mr. Dagher retired from the U.S. Air Force, having served over 27 years as an officer, combat pilot, commander, Weapons Officer, Electronic Warfare Officer, and Foreign Area Officer. He holds a Master of Science in International Political Science from the Royal Defense College, Brussels Belgium, a Master of Science in Aeronautical Science from Embry-Riddle in Daytona Beach, Florida, and a Bachelor of Science in Computer Science from the University of Illinois. Mr. Dagher holds an FAA Commercial Pilot Certificate and is an FAA Certified Flight Instructor. He is also a Certified Information Systems Manager (CISM).
