

Mr. Todd G. Myers
todd.g.myers@nga.mil

Senior Architect
National Geospatial-Intelligence Agency (NGA)

Todd G. Myers is the Senior Architect to NGA providing collaborative support to the Office of the Chief Information Officer (OCIO), Chief Information Officer (CIO), the Office of the Director of Technology D/T, and advisement for IT Strategic planning across NGA and the Intelligence Community (IC) for NGA.

Mr. Myers works on global orchestration for architectural concepts of compute, storage and transport virtualization has been used across the Department of Defense (DoD) and the IC in planning of data centers and mobile deployment capabilities. His enterprise strategy outlines the transformational activities for organizations to deliver a fabric of utility computing that scales on-demand and enables self-discovery and self-service access to timely and relevant information.

Mr. Myers is working across the IC in coordination with the Office of the Director of National Intelligence (ODNI) to architect, implement, and transition to the design patterns of global compute elements for the next generation of data analytics.
